# WHITE SQUALL FAMILY & STAFF

White Squall was born 26 years ago with no plan except a desire to share the outdoors and paddling with others. Our name came from the late Stan Roger's song "White Squall", a haunting ballad that captures the mystery and power of Georgian Bay. Beginners of all ages experience the fun of paddling with us in a quiet easy way.

White Squall is a leader in sea kayaking and offers a full range of skill and instructor certification – with some of the best teaching staff in Canada. Keeping us energized, exceptional young people join on every summer. We're dedicated to developing leaders in a comprehensive apprenticeship model. The result is outstanding staff who bring a wide variety of life experiences to their leadership.

Our trip groups are small, with a strong attention to environmental awareness. The geological and natural story of our coast is a fascinating tale. Wholesome, hearty meals are a highlight after being on the water, and you'll have lots of time to swim, explore and simply take in the solitude of the Bay and her islands.

We hope you can join us this year!  
Sincerely,  
Kathy and Tim

"and I tell these kids a hundred times, don't take the lakes for granted..."  
Stan Rogers — From the song "White Squall"

"Instructors Brian and Grace were courteous, knowledgeable and very accommodating. I would ask for them again in a heart beat!"

"I always felt safe but I also felt challenged and noted the care and skill my guides."

"For four teenagers that didn't want to come out today, they thoroughly enjoyed themselves & want to come back!"

"Instructors really helped my strokes and confidence on the water. Their attention to safety and comfort was really appreciated"

"Your guides were so helpful and such fun to be with - they always seemed to be having as much fun as we were"

"My kayaking fantasies were exceeded in every way. I had a fantastic time and am planning my return. My fellow trippers were the most congenial mix of folks and Brian, Sue and Siobhan are skilled trippers, thoughtful instructors, interesting conversationalist and lots of fun to be around."

## PROTECTING THE BIOSPHERE
